

Salford 'Cuckooing' Reporting Pathway

Immediate danger, risk of harm, concern for safety or threat to life.

Ring 999

Response from GMP

Immediate action will be taken

Concern for Safety but **NO immediate danger or risk of harm**

Ring 101 or online via the [Report a crime](#) form.

Response from GMP

GMP will create a log to review the risk/threats/harm.

Deciding if a visit to the address should be planned by the uniformed/neighbourhood police.

No concerns for safety but information/intelligence known

Complete the [GMP Partner Intelligence Form](#) and email to FIB@gmp.police.uk

Response from GMP

Information/intelligence will be shared with Force Intelligence Bureau (FIB)

Member of the public – Report anonymously via [Crimestoppers on 0800 555 111](#).

Professionals should be encouraged to submit intelligence via the FIB

All intelligence regardless of the route into GMP, is reviewed by FIB (Force Intelligence Bureau) regarding risks/threats to harm/life and will make an informed decision where it needs to be shared internally within GMP (ie, local district/neighbourhood teams, specialist units etc).

(When the FIB receives intelligence regarding Cuckooing relating to Salford residents, it's always shared with the Salford Connect Team but may also be sent to specialist units across GMP.)

The Salford Connect Team has a daily meeting (10am). GMP/Children Practitioners from the Salford Connect Team are present and the Adult Social Care Rep will 'dial in' (when required). The Connect Daily Log will be sent to the Advanced Practitioner for Exploitation or the Central Duty System worker who will provide cover in the Advanced Practitioner absence)

The ASC Advanced Practitioner for Exploitation will then screen the named adult(s) and dial into the meeting if there is information/intelligence to be shared. The purpose of the meeting is for sharing information and to review the previous 24 hours of police activity, including recorded crimes, intelligence, arrests and referrals.

From the intelligence provided if there is **no identified risks, or evidence that a crime** has been committed and no other known concerns regarding the adult. No further action will be taken.
GMP log will be closed.

If its **not clear that a crime has been committed** and further information/enquiry is needed then GMP Neighbourhood Team may become involved and visit the area/address to try and obtain further intelligence/evidence.

If **there is evidence that a crime is being or has been committed** Connect Team (GMP officers) will take the lead on the investigation and keep the NRM process informed and updated.

If there are concerns that the **adult has care and support needs** – GMP will make a referral to Adult Social Care via the routes referred to below.
If the intelligence is received and further investigation is needed a multi agency discussion/professional meeting is needed – multi agency risk assessment and safety plan to be agreed.

Connect Team - Decision is then made whether the person needs to move from the property

Worried about an adult

If the adult has care and support needs, please report your concern to Adult Social Care Contact Team

0161 206 0604/Report [online via the portal](#).
(Out of Hours Service – 0161 794 8888)

PLEASE REMEMBER – WORKING TOGETHER

A partnership approach will be key to understand and manage the identified risks and decide whether a multi agency approach is needed or a decision is made whether there should be a lead agency.

Worried about a child

The Bridge - 0161 603 4500

For Child Exploitation - there is a multi agency team that sit within the [Connect Team](#)

National Referral Mechanism (NRM)

Consideration for referral to NRM should be considered by all professionals throughout this process and kept under review.
