to be **safe** from **abuse**.

Introduction

Salford Safeguarding Adults Board

Salford Safeguarding Adults Board is a group of people who meet and work together to help adults with care and support needs stay safe from abuse and harm.

This document contains details of Salford Safeguarding Adult Board's (SSAB) plan for the next 3 years (2021–2024).

Stay safe

We want to try and make sure people who might need support are kept safe from abuse and harm.

Protecting people from harm and abuse is called Safeguarding.

There are six rules of Safeguarding.

1. Empowerment

The person should feel in control and decide what they want to happen.

2. Prevention

Try to stop abuse before it happens

3. Proportionality

Think about the risks and do not interfere more than you need to.

4. Protection

Support and speak up for the people who are most at risk

5. Partnership

People and professionals working together to try and keep people safe from harm and abuse.

6. Accountability

Make sure people can see and check how safeguarding is done.

Strategic Plan

2021

2022

2023

The Board must create a three-year plan and give updates on the plan every year in their Annual Report.

The Board want to make sure that if things go wrong lessons are learnt to try and stop mistakes happening again.

The Board want to make sure that people are listened to, and their voices are heard.

The plan for the next three years (2021 - 2024) focuses on 5 things:

1. Preventing abuse

Helping people to spot the signs of abuse to try and stop if happening.

Helping people know what to do if they are worried about any harm or abuse.

Helping people understand the different types of harm and abuse

Reviewing policies and procedures to make sure they are up to date.

2. Communication and Engagement

Listening to people living and working in Salford to make sure their views are represented

Asking people to tell us their experiences of using care services.

Providing information about safeguarding for different groups of people living in Salford

Make sure that information about safeguarding is

- Widely shared
- Easy to access
- Easy to understand

3. Person-centred approach

Listen to the voices of people who receive care or who care for others.

Learn from people's experiences and use this to improve safeguarding in Salford.

4. Safeguarding effectiveness

Collect information on safeguarding.

Analyse the information to make sure that work is being done to a good standard.

Use the information to make things better and help partner agencies work better with each other.

5. Exploitation

	<p>Help people understand what exploitation is and how it affects people.</p>
	<p>Help people know about help that is available.</p>
	<p>Improve the way partner agencies work together to protect people against exploitation.</p>
